Comment:

For several years we have been camping all over the US and Canada. We frequently encounter campsites booked up but vacant. A national park host told us to just go camp at any site because the problem is no shows caused by charging cancellation fees. It is of no value to release a site if you are charged anyway so just give up the money and no show. The situation needs fixing and I support your efforts.

Comment:

I oppose the Barnes Canyon development. Please keep human intrusion to a minimum, in wildlife habitat. Thanks.
